FOUNDED

April 17, 2017

FOUNDER

Volodymyr Popovych

INDUSTRY

Furniture and woodworking

LOCATION

Worldwide online

ABOUT US

LET'S CONTRIBUTE TO A SUSTAINABLE FUTURE TOGETHER!

LIGNO is a platform of wood products created in Ukraine. LIGNO helps sell manufacturers' own products in the Ukrainian and international e-markets, provides services and informs on the relevant events in the area.

We strive to develop Ukrainian design and find its authentic features.

Combining the efforts of the best Ukrainian product designers and manufacturers, LIGNO also confidently expands its own wood products line and promote Ukrainian design in the world.

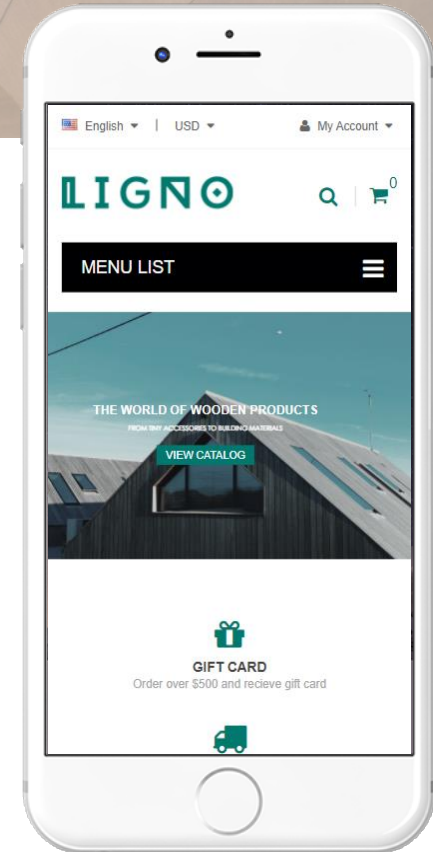

WHY WOOD?

Wood products are an integral part of our daily life. Wood products are used in cottages, high-rise buildings, infrastructure, furniture, decks, marinas and floor coverings, as well as small items such as tree houses, accessories, toys, hand tools, tableware and even jewelry. LIGNO is constantly promoting the concept of sustainable use of forest resources in Ukraine and around the world.

Using wood instead of other materials is one of the easiest ways to contribute to reducing carbon emissions because:

- trees capture CO₂ from the atmosphere and store it as carbon;
- harvested mature trees store carbon in buildings and wood products;
- the more trees are planted than carbon sequestration from forests will continue to increase.

THE PRODUCTS

NO COMPROMISE, ONLY THE HIGHEST QUALITY WOOD PRODUCTS

The background of the lower section is a teal-colored area with a complex geometric pattern of overlapping triangles. On the right side, there is a vertical strip showing a wood grain texture.
