

The multidisciplinary Ukrainian company CHEMEX LTD with its structural division “ProOrganica” deals with the sale of a wide range of commodities and is a certified organic operator according to EU Council Regulations.

Our values

Who we are and what is our mission as a company can be described in three words, PROactive, PROgressive, PROfessional

PROactive

From small local farmers to large-scale organic producers, we've developed a vast web of partners across Ukraine. We are proactive in seeking new opportunities to collaborate with this network to supply high-quality organic materials to our manufacturers and their retail partners.

PROgressive

The growth of Ukraine’s agricultural industry is helping transform the country for the better. As an aspiring social enterprise we want to be at the heart of this progressive change. As such, we find ways to promote economic, environmental and cultural progress in Ukraine and the surrounding regions.

PROfessional

We put an enormous amount of effort into maintaining the integrity of our organic supply chain, applying the highest professional standards to our services and products. We consider this as the core of a much deeper relationship with our business partners and customers.

What do we do?

We supply premium quality organic products from some of the richest soils on earth to our partners around the world

What we offer

Sourcing

All the farms we work with are certified organic* and all the raw materials that we process go through strict hygiene/sanitary checks performed by independent accredited laboratories.

Purchasing

We always purchase produce directly from Ukrainian organic farmers at a fair price, supporting small and family companies across the region.

Processing

We are engaged in cleaning, sorting and packaging of products through wholly-owned facilities to exact customer specifications.

Logistics

We offer customs cleared products in 25kg paper bags on pallets from a warehouse in the UK. We can also offer our products in 1MT big bags by container and truck loads, in bulk by containers with linear bags or in other (including small) packages as per customers' specifications

Transparency

ProOrganica provides full traceability and transparency throughout our entire supply-chain, handling the details of logistics, packaging and quality assurance according to the organic legislation requirements and customers' specifications.

Quality Control/Certification

We provide full traceability and transparency throughout our entire supply-chain and take charge of conducting quality checks and product analysis which go above and beyond the regulatory standards.

Products

We have established reliable partnerships with Ukrainian and international companies to offer a wide range of organic agricultural products, foremost grains/seeds and vegetable oils to our manufacturing partners.

Cereal Grains	Pulses	Oil Seeds	Oils	Nuts
Buckwheat	Lupine	Hemp	Soybean	Hazelnuts
Corn	Peas	Sunflower	Sunflower	Walnuts
Wheat	Soybean	Pumpkin	Pumpkin seed	
Spelt (Dinkel Wheat)	Lentils	Flax	Flaxseed	
Millet	Chickpeas		Hemp seed	
Oat				
Rye				

We are the fully certified independent service in Ukraine for the cleaning, sorting and packaging of organic grains and pulses.

We want to realize Ukraine's potential as an organic agricultural powerhouse, providing premium organic products and professional services.
