

Ex. № 1407/07 from 14.07.20

Commercial offer

Termion-Plus Limited Liability Company offers waste processing and utilization services according to the following list (according to the classification of waste adopted by the European Commission Decision 2000/532 / EC):

1. 10 01 02 Coal fly ash
2. 10 01 17 Fly ash from co-incineration processes, other than those specified in 10 01 16 (Fly ash from co-incineration processes containing harmful substances)
3. 19 01 16 Ash dust, except as specified in paragraph 19 01 15 (Ash dust containing harmful substances).

Our company is licensed to conduct operations in the field of safe waste management (38.21 Treatment and disposal of safe waste). We are interested in receiving ash from partners after burning organic raw materials (pellets from seed husks, wood / sawdust pellets, etc.).

Currently, the company has 2 industrial sites:

- One site is located at: Zhytomyr region, the city of Malyn.
 - Second site - Rivne region, the city of Sarny.
- Both places have access via roads for auto transport and railways.

Production capacity allows processing 10,000 tons of ash per month. The company is able to expand processing capacity to 30,000 tons per month. On the territory of the enterprise warehouses with a total area of 3000 sq.m. are arranged, which allows to store up to 4000 tons of raw materials temporarily.

The result of ash processing is - mineral fertilizers (potassium carbonate, calcium, phosphorus).

According to preliminary calculations, the cost of ash disposal is approximately around 100-150 euros per ton. Collection and transportation of ashes for processing and utilization will be carried out by the Customer.

The final cost, processing volumes and other terms of cooperation will be agreed with the Customer individually in the process of concluding the contract.

Sincerely,

**Responsible representative
on European cooperation**
